SUMMARY

Full-stack developer with 1 year of production experience building SaaS, POS, and ERP systems at Airoxlab promoted from intern to Junior Developer within 3 months. Shipped RBAC, payroll, finance, inventory, and WhatsApp modules for a POS platform used daily by **20+ businesses**; owns features end-to-end from PostgreSQL schema to real-time UI.

EXPERIENCE

Airoxlab

Oct. 2025 – Present

Junior Web Developer promoted from Intern (Jul. 2025 – Sep. 2025) within 3 months

Pakistan

- Deliver production features, updates, and fixes across frontend, backend, database, and deployment for **BizPOS**, a POS/ERP platform used daily by **20+ businesses** (Next.js, Node.js, PostgreSQL, Railway)
- Built core business modules end-to-end: **role-based access control (RBAC), payroll, finance, ledgers, and stock/inventory management**
- Integrated **WhatsApp messaging and a marketing campaign system**, enabling clients to reach their customers directly from the platform

PROJECTS

Cove Video Meeting App | Next.js, WebRTC, Socket.io

[Live](#) | [Code](#)

- Built a free Google Meet-style app with **multi-peer WebRTC video calls**, screen sharing, and instant shareable meeting links
- Implemented **in-browser meeting recording** plus real-time chat and presence over Socket.io signaling

SoloSafe Encrypted Password & Notes Vault | Next.js, Supabase, PostgreSQL

[Live](#) | [Code](#)

- Built a personal vault for **passwords, notes, files, and emails** sensitive data encrypted at rest, credentials hashed, nothing in plain text
- Implemented authentication, protected routes, and a responsive dashboard UI over a secure PostgreSQL schema

NextTalk Real-Time Chat App | React.js, Node.js, Express, Socket.io, Supabase

[Live](#) | [Code](#)

- Built a real-time messaging app with live chat, user search, and conversation management using **Socket.io**
- Implemented JWT authentication and Supabase/PostgreSQL storage for users, conversations, and message history
